

Executive summary 2022.03.28

Attendees

Council members: Melissa Haendel, Jim Costello, Katerina Kechris, Alison Lakin, Tell Bennett, Jameel Mallory, Michael Miller, Sara Deakyne Davies, Thomas Campbell, Bruce Dye, Teri Hernandez, Heather Anderson

Absent: Dallas Martin, Laura Morris

RIO staff: Carlos Goncalves, Chaitra Thippana, Ian Brooks, Kay Schneider, Steven Andrews

- Council members represent the whole campus and hospital partners and the first council meeting began with extensive introductions regarding expertise, role, and interests for the Council.
- Council reviewed and will continue to iterate on Council and Research Computing Working Group (RCWG) charters and will have finalized drafts by the end of April 2022.
- A data assets survey was created that aims to reveal campus-wide data assets for the development of a data discovery dashboard. The survey will be finalized the week of April 4, 2022 and will go out to the campus research community.
- The Monday.com pilot aims to explore the use of a shared ticketing/project management tool across campus units. The pilot began in February 2022. OVCR, SOM IT, CHAI, Compass, etc. have provided very positive feedback thus far. There have been many requests for more licenses. Evaluation will begin once all pilot licenses have been utilized (awaiting HIPAA compliance and for all groups to complete participation).
- Preliminary discussions were held regarding expanding the successful CCPM-UCHealth commercial partnership Scientific Advisory Committee review process to see if this process could be useful for other units.
