Human Subjects Research

- Research involving a living individual about whom data or biospecimens are obtained, used, studied or analyzed through **interaction/intervention**.
- Where identifiable, private information is used, studied, analyzed, or generated (**PHI**). This includes **human samples or data from an existing biobank**.
- Any experiment that involves a **test article and one or more human subjects** and that either is subject to requirements for prior or eventual submission to the FDA as part of an application for a research or marketing permit.
