

CU Anschutz Investigational Product Service - Fee Schedule

Non-Industry Sponsored Study

Services

- The CU Research Pharmacy (CURP) provides services to investigators who enroll subjects in protocols requiring investigational drug dispensing and administration in the outpatient setting.

Contact: Research.Pharmacy@cuanschutz.edu (303-724-0240)

I. Protocol Initiation/Start up (one time charge)

To include:

- Protocol review and identification of pharmacy/dispensing methodology
- Staff In-services
- Initial meeting(s) with Sponsor/Investigator(s)
- Developing procedures for storage, randomization/blinding, dispensing, maintenance, and drug accountability
- Preparation of IDS budget
- Set up and build of SOP
- Vestigo build

Outpatient Standard: \$2,500
(Close out will be added at the beginning of study)

Study year start date is based on the date of the sponsor study initiation visit or the date of study medication receipt.

II. Protocol Annual Maintenance (Assessed after first study year for any part of a year)

To include:

- Inventory control/accountability/record maintenance
- Ordering/receiving/storage
- Ongoing meetings with Sponsor/Monitors/Investigators
- Quality Assurance monitoring
- Collection, reconciliation & storage of returns
- Return or destruction of used or expired drug
- Protocol amendment(s)

Based on enrollment activity, monitor visits, number and extensiveness of amendments, storage needs, reporting requirements - as determined by CURP pharmacist.

\$ 1,500 annually (billed prorated monthly fee until study closeout)

III. Study Close out and IP Destruction

To include:

- Final inventory accountability
- Preparation of all closeout procedures
- Meeting with CRAs for final counts
- Preparing product for disposal per UC Anschutz SOP
- Prepare binder for storage

\$500
(billed during study start up)

IV. Miscellaneous

- Transportation Fee – If the CURP serves as a central depot and requires shipping or transportation of IP off site for multi-site studies
- Protocol amendment Fee – (alters CURP handling of IP)
- Additional Fee- per agreement with PI and Pharmacy (eg. Shipping for sterilization or for pyrogen/sterility testing)
- Unblinded study drug administration (IM or Subcutaneous)

\$200 per shipment

\$150

TBD
\$75

V. Dispensing and Compounding Support

- Compounding (OUTPATIENT setting)

\$ 75 per hour or any part of an hour plus cost of materials

- OUTPATIENT – Routine dispensing

\$ 60 per dispensing

- OUTPATIENT – Complex dispensing (e.g., Hazardous or requires manipulation)

\$ 75 per dispensing

- OUTPATIENT – Routine parenteral product dispensing (e.g., syringe)

\$ 100 per unit

- OUTPATIENT – High complexity parenteral product dispensing

\$ 120 per unit

VI. Drug Pricing Note:

Drug Purchasing Pricing = WAC +10%

Please be advised that charges to the study for drugs acquired from CURP commercial stock will increase with the

increased cost of drug acquisition. Staff members preparing budgets should factor in cost increases of up to 10% per year in the event that there are price increases to CURP purchases. In addition, please plan for an annual 3% increase in overall CURP fees.

Effective date: Effective January 2024
